ABOUT TRUMPF

TRUMPF's Talent Acquisition teams are based primarily in Germany, Austria, Switzerland, Poland, China and the US. Collectively, they support TRUMPF and its subsidiaries spanning across nearly every European Country as well as North and South America and Asia.

Elevating Interview Excellence: TRUMPF's Quest for Improvement

- ✓ Escape the Time-Consuming Manual Interview Coordination Struggle.
- ✓ Tooling to make scheduling effortless for candidates.
- ✓ Streamline global candidate and interview team coordination effortlessly.
- ✓ Foster seamless communication for cohesive candidate-team interactions.
- ✓ Opportunity to enrich candidate experiences.
- ✓ Retrieve key data and insights from recruiting activities to improve overall Talent acquisition processes.

Rooster Delivered Unique Advantages to TRUMPF Global TA Teams

- ✓ Fully automated, self-scheduling process for screening calls and 1st -to-Final interview stages.
- ✓ Rooster's exclusive focus on Workday delivers unmatched integration and continuous enhancements for clients like TRUMPF.
- ✓ Rooster's deep integration allows TRUMPF to report on many fields related to key TA processes.
- ✓ Microsoft Teams Bot flows information to Interviewers within their normal flow of work.
- ✓ Microsoft-Vetted government cloud solution passing TRUMPF's stringent security requirements.
- ✓ Turn-key, low-cost Implementation that does not require months of change management.

"We were impressed by Rooster's deep Workday integration and their profound understanding of our unique challenges as a Workday customer.

Collaborating with partners like Rooster, who are dedicated to solving problems exclusively within the Workday community, provides our business with a significant competitive advantage in both the short and long term."

Gregor Stanulonis

Head of Talent Acquisition at TRUMPF

The TRUMPF Group was founded in 1923 as a series of mechanical workshops and has since developed into one of the world's leading companies for machine tools, laser technology, and electronics for industrial applications.

TRUMPF is in the process of Implementing Rooster globally for its Talent Acquisition Teams with an initial focus on high volume locations. The project is scheduled for completion in early 2024.
